Att: Mr. Nebojša Zubović

zadeva • subject: »Halogen-Free« compliance of your Nxx-C and Nxx-D Installation boxes

strani • pages: 1

Dear Mr. Zubović,

In 2012, we have performed XRF screening of materials of your Installation boxes in order to evaluate compliance with requirements of 2011/65/EU directive (RoHS). Results were presented in test report No.: T211-0239/12.

We have re-checked results measured during that testing additionally for Chlorine and we confirm that all plastic materials stated in above mentioned test report comply with definition of »Halogen-Free« as per IEC 61249-2-21.

According to IEC 61249-2-21, definition for »Halogen-Free« is: 900 ppm max. Chlorine; 900 ppm max. Bromine and 1500 ppm max. total halogens.

Best regards,

Tibor Kokelj
Safety and Electromagnetics
